U. OF U. BASEBALL.

Played a Practice Game With All

Hallows Yesterday. The University and All Hallows base-ball teams played a practice game at the university grounds 'vesterday afternoon. Both teatas are trying out men for the various positions, for which there are numerous applications. The diamond at the university has been scraped and rolled, and is now in first-class condition for playing. Pract, the star second baseman of the University, who has been counted upon to strengthen the team, has left on a vacation of four weeks, when he will return and play out the rest of the season. Scaley, one of the out-fielders, left last week for Colorado, and will not return until next fall.

ANOTHER TWIRLER ARRIVES.

Bevisle has put in the past winter in California, and therefore is arready in gold condition to pen the game saturday. His fielding average for the past season was \$39, out of a total of lifteen games, and his work with the bat shows a percentage of \$20. The latest recruit to the Railways was considered one of the best men on the coast and \$3 ail his work against the Oakland team, who were the heaviest hitters in the California league. Captain Risley of the Sait Lakes stated last evening that Webster would be the man to hok' down the rubber for his team tomorrow, and has full contidence in his about to cope with the high percentage hiters on the Railways. Clippinger stated that he would put Beville, who has just arrived, in the box to uphold the reputations of the Railways. These men are about the strongest that could be secured, and it will not be surprising if the game tomorrow will be a pitchers' battle. The players are all new with the stick and these two old-timers ought to have a lew strike-outs to imers ought to have a new strike-outs their credit before the game is over.

Monograms Will Arrive Sunday. Ass stant Manager Wildams of the Rail-

For this reason the team will not be able to appear in their bright-new uniforms tomorrow, but instead, will wear the old biouses of the last year Short Lines.

As soon as the monograms arrive the diffirst railroads represented on the team will draw for the players to represent them.

Game for Monday.

In all probability the local public will be to sted to a game of ball not agreed upon in the regular schedule. The management of the Salt Lakes and Railways held a conterence yesterday and all but agreed upon an exhibition game for Arbor day, which is next Monday. This will be opening the season with a vengeance. Three States the days of base all should be enough

The paper on "Educational Legislation in the United States," which brought out the discussion, was read by the Rev. James P. Fagin, S. J., vice president of Georgetown university.

Professor E. J. Ryan, A. M., of Mount St. Mary's college, Emmettsburg, Md., read a paper on "Teaching of English in College," in which he pleaded for the purity and thoroughness of the language. Speakers at the afternoon session declared that modern educational legislation threatened the life of the parochial sciool system. All this class of legislative action, they said, seriously discriminated against the church schools and ever, other system of education which seeks to combine religious training with learning. It was argued that under existing conditions Catholics were compelled to pay taxes for the support of public schools which their children do not attend. It was insisted that the state should recognize Catholic schools on the same base with other educational institutions to which financial assistance is given.

It is alleged that Croft, who is a prominent citizen of Soda Springs, rounded up seventeen horses belonging to other men and shipped them from the state.

While here Croft did nothing to excite suspicion. He told a number of people his name and business and residence, etc. After selling the horses he said he was going back to Soda Springs. People here believe there is some mistake somewhere.
